Excerpts from ODP Div/Staff Reports for Week Ending 24 June 1983Management Staff

Finance. As of 22 June, there were 34 outstanding advances with a dollar value of \$22,620. No accounts were delinquent. Effective 19 June, the POV mileage reimbursement rate has increased from 20 cents to 20.5 cents per mile. [REDACTED]

STAT

International Data Corporation. A meeting was held with an IDC representative to discuss our use of their call-in service. This service provides access to IDC technical personnel and data bases to answer questions dealing with ADP equipment, services, and vendors. We have recently become dissatisfied with IDC responsiveness. The IDC representative, Joe Pierce, indicated changes are planned to improve the service. We will be carefully monitoring IDC performance in the future. [REDACTED]

STAT

Emergency Planning. ODP provided the DDA Plans Officer with a draft summary of the ODP Continuity of Operations Concept. This was in response to a request for a brief review of how ODP would cope with a temporary (less than 30 days), localized disruption of essential activities and functions affecting the Headquarters area. A copy of this draft concept is being circulated to senior ODP managers for review and comment. [REDACTED]

Applications

Britton-Lee, Incorporated, tested the block multiplexor channel board on the IBM 4341 at the ESL facility over the weekend of 11-12 June. There were some minor problems with the board which were corrected on the spot. The test results provide increased confidence in the success of similar testing on the IBM 168 scheduled for 24-26 June at the CAMS2 (P/S) Development facility.

Processing

Processing completed the Early Support Program (ESP) with IBM Corporation on their 3088 Channel-to-Channel (CTC) unit, two of which have been installed in the Ruffing Computer Center and used in production for the last several months. This hardware is a critical component in our long-term Single System Image (SSI) strategy. This hardware also required modifications to the VM/SP Operating System to support the full range of 64 addresses now available. Discussions at IBM Gaithersburg centered around the support we had received from IBM during the ESP and the changes we would like to see with the unit to make it more usable in our computing environment. [REDACTED]

STAT

The Trouble Desk handled a total of 910 phone calls for the week of 13-19 June; 685 incoming calls, 225 outgoing calls, and 99 Wang calls. One hundred sixty-five of the incoming calls reported terminal problems. This is a record number of calls handled by the Trouble Desk. We have been averaging approximately 700 calls a week. [REDACTED]

STAT

On 21 June, the TADS application was moved from VM2 to VM1 to enhance overall performance of the VM service. [REDACTED]

ODP 83-919
23 June 1983

MEMORANDUM FOR: Deputy Director for Administration

FROM:

Director of Data Processing

STAT

SUBJECT: ODP Report for Week Ending 24 June 1983

1. Personnel Resource Information Management (PRIM)

The first move of live data from HRS2 to PRIM production was successfully completed on 20 June. The 100 participants can now test retrievals and procedures with live data. Subsequent data moves will be on a weekend basis until PRIM is operational, at which time moves will be daily.

2. Excess Burroughs Equipment

A letter was prepared for DDA signature formally transferring ownership of two B6900 computer systems to the Department of the Navy. The Navy transferred \$100,000 to the SAFE Project Office to cover funds owed on the systems when the project was redirected. Four Burroughs B6900s remain unassigned.

3. SAFE Early Capability

The first Defense Intelligence Agency (DIA) user training class for SAFE-D was completed on 17 June at C of C. The Office of Training and Education (OTE) provided the training and facilities for 20 students. The system performed normally during training. The second DIA user training class for 20 additional users commenced on 20 June. Completion of this class on 24 June will mean that DIA will have 60 trained personnel at IOC on 27 June.

SUBJECT: ODP Report for Week Ending 24 June 1983

On 23 June, Brigadier General D. W. Goodman, Chief of Staff, DIA received a demonstration of DIA's SAFE Early Capability (SEC) at the Ames Building. He received a short introductory briefing leading to a demonstration scenario that portrayed a hypothetical DIA analyst exercising SEC in his daily activities. The Acting Director of DIA, Major General Schuyler Bissell, viewed the same demonstration on 24 June.
